Barcelona BioMed Seminars

Extraordinary Seminar

Maths4Life

Speakers

Pau Redon - Batch effect in microbiome data

Tomàs Montserrat - Evaluation of the robustness to batch effect in RNA velocity analyses

Marcell Veiner – Predicting Mutation Risk in Cancer Genomes using Deep Neural Networks

Llorenç Benaches – GOdMD model applied to chromatin and Cryo-EM proteins transitions

Albert Viladot - Machine learning NFR predictor

Marc Burillo - RNA Coarse Grained Molecular Dynamics

Sergi Orozco– Survival analysis of H3K4me3 enriched regions in intergenerational mice treated with Palmitic Oil

Date & Time	Thursday, 24 November, 15:00 – 17:00
Place	Fèlix Serratosa
